

403: St George Academy Attire Expectations

St. George Academy is an institution of academic excellence and thought. We define our collective culture as a cross section of self-expression, inclusion, and academic setting.

Expectations of Dress for the Academic Environment

- Shoes are required while on campus
- Upper body clothing must have straps
- Clothing must cover undergarments so that they are not seen (bra straps and socks excluded)
- Clothing must be suitable for scheduled classroom activities, including PE, science labs, art, etc.
- Specialized courses may require specialized safety attire
- Clothing must be free of depictions that promote drugs, alcohol, tobacco use, hate-speech, or violence and must be free of sexually explicit images

SGA's Expectations of Personal responsibility

Part of the dress code design is to allow students the **personal responsibility** of choosing clothing that represents our **academic environment**. To achieve this goal, SGA is providing students (and parents) with simple ways to check whether an outfit is appropriate to wear to school.

- Shirt or legwear must **reach** belly button when you are standing
- Legwear must cover legs from the **palms** up
- Upper body clothing must cover armpit to armpit both front and back (with reasonable exceptions for differing body types)
